

Daily Detox – Product Education

Detox your body every day of internal and environmental toxins.

Why detox the body?

Our bodies are bombarded with internal and environmental toxins, or harmful chemicals, every day. They are in the food we eat, the water we drink and the air we breathe. These toxins put a burden on the body's systems of detoxification. Over time, the accumulation of toxins can take a toll on our health.

Detoxing the body improves digestion and bowel elimination. It supports clearer thinking and improved mood and emotional outlook. Detoxing the body can increase vitality, enhance immunity, promote better metabolism and offer nutritional support for the maintenance of good health.

Daily Detox by PURE

This gentle blend of botanicals improves digestion and bowel elimination while increasing vitality and enhancing immunity.* It is created for daily use, and to be used as a natural bridge between HealthTrim® Cleanse cycles.

- Balances the channels of elimination
- Supports a healthy inflammatory response
- Helps maintain a healthy cardiovascular system*
- Neutralizes damaging free radicals
- Provides nutritional support for the liver

Three phases of detoxification

The botanicals in Daily Detox support the 7 channels of elimination: liver, kidneys, lungs, blood, lymph, skin and colon. These channels are broken down into three phases: 1) transformation; 2) conjugation; and 3) elimination of toxins. Daily Detox is very effective in supporting these three phases.

Phase 1 — The liver, GI tract, lungs and kidneys break down and neutralize toxic substances.

Phase 2 — Bile secreted by the liver helps toxins become more water soluble making them easily eliminated.

Phase 3 — Toxins are finally transported and eliminated from the body.*

Recommended Use of Daily Detox:

Take 2 capsules in the morning, preferably with food. Not recommended for children under the age of 18 years, due to the combination of ingredients. If you are pregnant, nursing, taking a prescription medication, or have a medical condition, consult a physician before using this product.

Key ingredients and detoxification phase they support:

- **N-acetylcysteine** – an amino acid that provides nutritional support for the liver during phase 1 – the initial breakdown of toxins
- **Broccoli sprout extract, artichoke extract** – supports the liver during phase 1
- **Milk thistle extract** – helps promote a healthy inflammatory response in the liver during phases 1 and 2
- **Turmeric root extract** – supports a healthy inflammatory response within the body during phases 1 and 2
- **Devil's claw extract** – supports the function of the lymphatic system which helps drain harmful substances from the body during phase 2
- **Grape seed extract, resveratrol** – helps maintain a healthy cardiovascular system during phase 2
- **Slippery Elm Bark powder** – provides gentle support for elimination and promotes a healthy inflammatory response during phase 3
- **Dandelion root and leaf extracts** – supports kidney function in the elimination of toxins during phase 3
- **Bioperine** – an extract from black pepper that improves absorption of other extracts in Daily Detox during phases 1, 2 and 3
